CANCERFREE KIDS

Nonprofit organization

HISTORY

CancerFree KIDS was founded by Ellen and Sam Flannery after their daughter was diagnosed with cancer in both of her eyes at 5 months age. Today, thanks to cancer research, that baby is a healthy college student.

ABOUT US

Purpose

The mission of CancerFree KIDS is to eradicate cancer as a life-threatening disease in children by funding promising research that might otherwise go unfunded.

What Makes Us Different

CancerFree KIDS funds innovative research that has the promise of gentler treatments and cures for children with cancer.

Impact

CancerFree KIDS has funded 124 research projects totaling nearly \$4.4 million. Our funding goes directly to the research project where every dollar is accounted for.

**More than 175,000
children worldwide are
diagnosed with cancer
each year.**
